

A GIFT FOR YOU

Cityfarm's Little Green Thumbs Program is a seeds-to-salad program whereby indoor grow boxes are placed in schools and after-school care centres located in high needs areas. Children plant lettuce, herbs, tomato, bean and pepper plants and get to eat the food they have grown themselves.

This gift provides a child the opportunity to connect with nature and foster an appreciation for how food is grown, while developing healthy lifestyles and eating habits and acquiring life-enhancing skills. Your gift will literally keep on growing!

This card acknowledges that a gift has been made in your honour to the Cityfarm Little Green Thumbs Program.
